U.S. MOVE MAY PRODUCE COLLAPSE OF JAPANESE AGGRESSION: WILL INSERT BACKBONE INTO BRITISH STAND IN EAST

Chungking On "Timely And Admirable Stroke"

CHUNGKING, JULY 28 (CENTRAL)—CHINA'S WARTIME CAPITAL ENTHUSIASTICALLY hailed the United States' abrogation of the 1911 Treaty with Japan as the "heaviest blow to Japan in the past two years," and is anxiously and expectantly waiting for Washington to follow up this initial indication of its deep concern over the Far East situation with further action.

President Roosevelt's move was taken as the natural consequence of Japan's utter disregard of the interests of friendly nations in China, which had at last exhausted their patience and forbearance and driven them to drastic action, it is pointed out.

The effect of the abrogation of the American-Japanese treaty on the economic life of Japan will be incalculable, many quarters here believed, as America used to be Japan's largest customer and 70 per cent. of Japan's export trade was with the United States.

Slump In Securities

There is every indication that Japan will cease to receive from America cotton, iron, steel, oil, timber and other raw materials essential for the execution of her war with China, it is believed. Already the heavy slump in Japan's securities showed how great a shock the American decision had caused.

Reported Japanese Landing In Mirs Bay

"THE JAPANESE LANDED AT MIRS BAY AT 6.15 P.M.," was the brief, dramatic message received by the "Hongkong Daily Press" late last night from a usually reliable source.

Inquiries were immediately pursued, but police and other authoritative quarters were unable to confirm the information, saying that no report of the nature had been received.

ACTIVITIES INCREASED

Another official approached said that it was not denied that the Japanese Navy had increased its activities recently in South China waters, and although he was of the opinion that a landing such as might be generally understood was unlikely, it was possible that a small party from a Japanese man-of-war might have gone ashore in Chinese territory close to Mirs Bay.

Dr. Wang Chung-hui's Evaluation

CHUNGKING, July 28 (Central)—Washington's move to abrogate the 1911 Treaty of Commerce and Navigation with Japan was hailed by Dr. Wang Chung-hui, Minister of Foreign Affairs, in an interview with foreign press members to-day as indicating America's willingness to maintain her position and prestige in the Pacific.

Dr. Wang hoped that America, following this course, would take all concrete and positive action within her power to check international lawlessness and restore world peace and mutual confidence.

He pointed out that the United States can exercise decisive influence over the peace of the Far East and other parts of the world without having to resort to war.

America's action in abrogating the 1911 Treaty, Dr. Wang said, has confirmed the unshakable confidence of China in the American people and their sense of justice.

Britain May Denounce Own Commercial Pact "Get Into Step With U.S. Policy," Press Demands

LONDON, July 28 (Reuter)—The "Manchester Guardian" states that President Roosevelt's decision is a warning of further and more serious action.

The continuance of the present conditions must mean a rising demand by the American people for the cessation of those supplies without which the invasion of China could not be prosecuted.

The "Birmingham Post" stresses the useful indirect effect of the American action on the Anglo-Japanese negotiations. "Britain and America are clearly still not in step regarding the Far East, but they are a good deal nearer getting into step."

Violations Of Pact According to the diplomatic correspondent of the "Times" a study of its text shows that Japanese soldiers have been violating the spirit of the Japanese-American Treaty in many ways. He recalls that the Anglo-Japanese Treaty of 1911 is exactly similar in its working to the treaty with the United States.

JAPAN FUMES & BLUSTERS

TOKYO, July 28 (Reuter)—Asked whether the last sentence in the Foreign Office statement issued at mid-night, "In case the United States Government desire to conclude a new treaty with Japan in conformity with the new situation in East Asia, the Japanese Government will be glad to do so," was a demand, a Foreign Office spokesman, at a press conference, replied that undoubtedly the new situation in East Asia demands a new treaty but the remark was not a demand.

The spokesman added that it was merely an expectation. "At present we do not say that we are going to demand American recognition of the new situation in East Asia," remarked the spokesman.

He further asserted that the effect on Japan of the United States' treaty abrogation "was not so great."

CHINA MUST STAY FREE

Real Meaning Of Abrogation

NEW YORK, July 28 (T/Ocean)—Expressing unreserved approval of the American Government's step in denouncing the American-Japanese commercial agreement, the two leading New York papers, the "New York Times" and the "Herald Tribune" both predict further measures against Japan.

Through abrogating her agreement with Japan, America has revealed to the Japanese Government in an unmistakable form that she regards the nine power treaty, which guarantees the independence and territorial inviolability of China, as still binding.

America, it is declared, is determined to use all peaceful means at its disposal to protect the independence of China. Except for the more drastic method of severing the diplomatic relations with Japan, the abrogation of the agreement was, according to the "Herald Tribune" the only effective way of making the Japanese Government realize that America insists upon respect for treaties in which she is involved.

It is predicted that Japan will soon react to the American step by announcing retaliatory measures which will absolve the Department of State from the task of devising new trade regulations to cover the six months period before the agreement becomes null and void.

Reuter reports from Cairo it is officially announced that all British and Egyptian naval, military and air forces will co-operate in combined manoeuvres in Alexandria area, from August 15 to 17. A.R.P. organizations will participate in the exercises which will test the coastal anti-aircraft defences.

Paris Thinks Action Will Affect Tokyo Negotiations

PARIS, JULY 28 (REUTER)—THE ABROGATION by the United States of its Commercial Treaty with Japan is welcomed by the press.

Mme. Tabouis states: "President Roosevelt's primary aim is to support Britain at a moment when she is negotiating with Japan, to help her resist the Japanese demands. The Americans desire that Britain shall stand firm, that is, that any concessions she may make to Japan may have only a local range. They do not wish her to in any way cease their indirect financial support of China."

M. Pietri, in "Le Jour" interprets it as a step towards the revision of the American Neutrality Act.

"L'Espresso" writes: "The Americans were beginning to be afraid that they would be alone in the Pacific. They therefore tried to remedy the situation."

I.R.A. Turn To Cutting Telephone Wire: Police Preparing List Of Suspects For Deportations Soon

BOTH WRISTS FRACTURED

Chan Wal, 39, fractured both his wrists when he fell from a ladder yesterday on the seventh floor of China Building.

He was carrying some planks and ascending the ladder when he accidentally slipped. He was sent in an ambulance to Queen Mary Hospital.

INTERNMENT IS AWAITING IN BELFAST

PRECAUTIONARY PARLIAMENT MEASURE

LONDON, July 28 (Reuter)—Cutting of the telephone wire at kiosks at Leicester Square and Euston Road districts is believed to be the largest manifestation of Irish Republican Army activities.

As a precautionary measure the public will not be allowed to visit the Houses of Parliament during the week-end.

Meanwhile, as the result of police action four men are still being detained in London for inquiries. Many visits have been made to addresses of known sympathisers of the I.R.A. movement and a list of names is being prepared for consideration of the Home Secretary, Sir Samuel Hoare, under the terms of the new Bill which will not mean anything in nature so spectacular as deportations immediately it becomes law.

Much preliminary work, including questioning and preparation of dossiers, is necessary before approval can be obtained to secure registration or deportation. (Continued on Page 9)

KING WATCHES NEW DRILL

GUARDS MARCH THREE DEEP

LONDON, July 28 (Reuter)—The King watched a demonstration of the new drill at the changing of the Colours this morning.

The Guards marched three deep instead of four deep. Two hundred and seventy members of the Grenadier and Irish Guards, and the bands of the Grenadier and Coldstream Guards took part in the parade when the King watched from the window of the Commander-in-Chief of the Horse Guards' headquarters.

SLAUGHTER OF TIENTSIN BRITONS IS THREATENED

TIENTSIN, JULY 28 (REUTER)—BRITISH RESIDENTS IN THE JAPANESE-CONTROLLED AREA OF TIENTSIN, to-day received notices by mail from the "Anti-British National Salvation League" warning them to evacuate Tientsin at the earliest opportunity if they wish to save their lives.

The notice says: "You must know that this is the time which will see the complete collapse of the history of aggression of the British Empire in the Far East."

"You white people will have no foothold in this paradise of the Orient. The awakening of the Yellow Race is growing steadily together with the anti-British movement. We are well organized and determined to pursue anti-British resistance with iron and blood."

"If you are wise, you will choose the earliest opportunity to evacuate Tientsin, in which event your lives will be saved."

BUT IN TOKYO ALL IS SWEETNESS AND LIGHT

TOKYO, July 28 (Reuter)—According to a spokesman of the Japanese Foreign Office, the conversations are proceeding "well and smoothly in a friendly atmosphere."

INTEREST IN LEAGUE STANDINGS

SOME KEEN GAMES EXPECTED THIS WEEK-END

BY R.O.Y.

Although the destination of the pennant has already been decided, baseball fans will watch with considerable interest the efforts of the Hongkong Baseballers to lift themselves out of the cellar position in the league standings.

At 2.30 this afternoon, the Club meet South China for the first time this year and if they do not take this opportunity of chalking up their first points, they will probably finish the season with nary a win.

Surprising Team

Nam Wah has been the most surprising team in the league; they scored a convincing win over Recreio in their first outing and met with no further success, until they created a great upset by trouncing the much-fancied Chinese Baseballers.

The Club, on the other hand, have been consistent losers, but have shown improved form in their recent matches. The South China gang will be without their captain, Bill Hong Sing, and cannot afford to take any chances with "Doc" Molthen's squad which is expected to be at full strength for this tussle.

Brewers' Final Game

To-morrow morning will see the Union Brewers finishing their league fixtures with a final game against Recreio. Dave Leonard is expected to be back on the job, after his recent indisposition, and Manager Chet Bennett is determined that his boys will complete the season without tasting defeat.

According to many competent critics, Recreio has the best ball playing team in the league, despite their mediocre record. After a poor start the Portuguese boys appear to have hit something like their normal stride and at their last appearance squeezed out a narrow win over the powerful Mindanao aggregation. On that form, they can be expected to fully extend the Beer Barons if not beat them.

Rambling Rec's

The Rambling Rec's are still in a position to claw their way up to second place and this should give them plenty of incentive to get in there and give of their best. Whatever the final result, fans can be sure of seeing a real hard-fought ball game.

An encouraging feature of local baseball this year, has been the appearance of several squads of newcomers to the game. After the U.B.-Recreio clash has ended, the Royal Engineers have arranged to play a friendly with a team composed of youngsters from Hong Kong. The latter have little hard-ball experience, but, with a season of softball behind them, should give the Sappers an excellent test.

CORRESPONDENCE

V.R.C. SPECIAL MEETING

[To the Editor of the "Hongkong Daily Press"]

Sir,—Having been connected with the good old Victoria Recreation Club since 1880 (59 years), I would like to comment strongly on the results of the Special Meeting held by members of the Club on Monday, July 21.

I, as an old member, warmly support the opinion held by Messrs. Cooke and Lyons against the resolution passed by 36 members, that, the legacy of £1,000, so kindly and thoughtfully left by the late Mr. Thomas Meek, for the Club, be used, in addition to borrowing \$2,000.00 to \$3,000.00 from a Bank, to cover the expenses for alterations to the Club just to please a few younger members, for a badminton court and special room for ladies to change at swimming galas.

As far as I can recall, as late Hon. Secretary for over 6 years, and on the General Committee of the Club for many years, I would like to point out to the members, that the receipts for membership fees and bar accounts do not allow the Club to make any further unnecessary alterations to the premises at the present moment.

The bar receipts are small, as most of the members drink lemon squashes and more often a glass of water with a toothpick present.

The Club at present is badly in need of some new furniture and the atmosphere of the Club rooms and verandah is very cheerless. Why not do something first about this?

If this money is spent as suggested at the meeting, will this be recovered if the Government re-enter the site? If not, then would it not be best to wait until the tenure of the Club Site is at least secure before throwing this nest egg away.

I trust the Committee will again think over this seriously before plunging the Club into debt with needless alterations when they do not know how long they will enjoy possession, or, whether another site will be made available. I would like to see more letters commenting on the subject.

Australian Rugby Team For England

The Australia Rugby Union team of 29 players who will sail this month for a tour of Great Britain includes 17 representatives of New South Wales, eight of Queensland, and four of Victoria.

The team includes a big proportion of young players among whom is the 19-year-old centre three-quarter D. Carrick, who was a schoolboy player last year. The team is as follows:—

Full backs: R. Rankin (N.S.W.), M. Clifford (N.S.W.).

Wing three-quarters: M. L. Carpenter (Vic.), V. M. Nicholson (Qld.), B. J. Porter (N.S.W.), J. D. Kelaher (N.S.W.).

Centre three-quarters: W. P. J. Ide (Qld.), L. H. Smith (N.S.W.), Five-eighths: V. Richards (N.S.W.), P. K. Collins (N.S.W.).

Half-backs: E. de C. Gibbons (N.S.W.), C. Ramalli (N.S.W.).

Breakaway forwards: B. B. Oxenham (N.S.W.), E. B. Oxide (Qld.), J. C. McDonald (Qld.), K. S. Windon (N.S.W.).

Lock forwards: A. J. Hodgson (N.S.W.), W. E. McLean (Qld.). Second row forwards: A. W. Monti (Qld.), S. Y. Bissett (Vic.), K. M. Ramsay (N.S.W.).

Front row forwards: V. W. Wilson (Qld.), G. A. Pearson (Vic.), J. H. Malone (N.S.W.), J. E. Turnbull (N.S.W.).

Hookers: A. H. Stone (N.S.W.), A. W. M. Barr (Vic.).

M. Carpenter was formerly a prominent Rugby and tennis player in Western Australia. He showed brilliant form for Victoria last season and his selection as a member of the team to tour Great Britain was regarded as a foregone conclusion.

The team will play against All-England when they pass through Colombo, on August 2.

AMES AND AUSTRALIA

WILL HE BE WELL ENOUGH TO GO?

By A Special Correspondent
We want 100-runs-in-67 minutes Leslie Ames back in the England cricket side. As batsman and wicket-keeper. It is a matter of national cricket importance.

But what about that bad back of his when it comes to picking next summer the party for Australia? I put that point to him recently—after he had taken the children to school and before he left his home at Gillingham for the match against Somerset at Maidstone.

He told me that his 138 not out against Surrey—in 105 minutes—had left him no more than "a bit stiff"—and he agreed that the innings was a pretty good test of fitness.

"But I still feel my back frequently—an ache with an occasional stab. That is why I certainly shall not keep wicket this season."

NEXT SEASON

As for next season, I can't tell any more than you. I'm hoping that a whole year's rest from bending behind the stumps will put the trouble right. I'm hoping to be able to keep wicket next season, so as to be available for

5 WICKETS FOR 4 RUNS

ESSEX BOWLER'S PERFORMANCE

LONDON, July 28 (Reuter).—Some remarkable bowling was witnessed at Wells, where Essex defeated Somerset in a County match by 123 runs.

Essex were only able to score 72 runs in their first innings, Wellard taking 5 wickets for 33 runs.

When Somerset went in, to bat, Stephenson, the Essex bowler, performed the remarkable feat of bagging 5 Somerset wickets for only 4 runs! Somerset were dismissed for 51 runs.

In their second innings, Essex scored 174 runs, Wellard again coming off successfully with the ball by taking 7 wickets for 68 runs.

Somerset were only able to equal Essex's first innings total of 72 runs, Taylor this time bowling most successfully to take 5 wickets for 23 runs.

Australia if I'm good enough to be chosen.

"That's the position and I shan't know till 1940."

Well, if Ames can beat Surrey by scoring the season's fastest hundred with a bad back what would he do with good one?

EX-PUPIL DEMANDS TEACHER'S. DEATH

Spain's Former Speaker Faces Court-Martial

Charged before an extraordinary court-martial at Madrid on Saturday with being an instigator of a military rebellion against the present Government of Spain, Don Julian Besteiro, aged 65, Spanish Socialist leader, heard his execution demanded by a man whom he once taught at Madrid University.

Throughout the four and a half hours' trial before four generals and three lieutenant-colonels, Besteiro—raised for the purpose of the proceedings to the status of a general—fidgeted with his soft grey felt hat, and, looking from judge to judge, shook his head.

Sentence Demanded

He brushed a hand across his forehead when Lieut.-Colonel Acebo, prosecutor, demanded the death sentence. Acebo had earlier recalled that he had been a student of the old man, when Besteiro was Professor of Logic and Dean of the Faculty of Philosophy at Madrid University.

The charge against Besteiro was based principally on the signature

he put to a collective Parliamentary declaration favouring a Popular Front after General Franco had started the civil war.

But another "crime" was his acceptance of the position of representative of Spain at the coronation of King George VI.

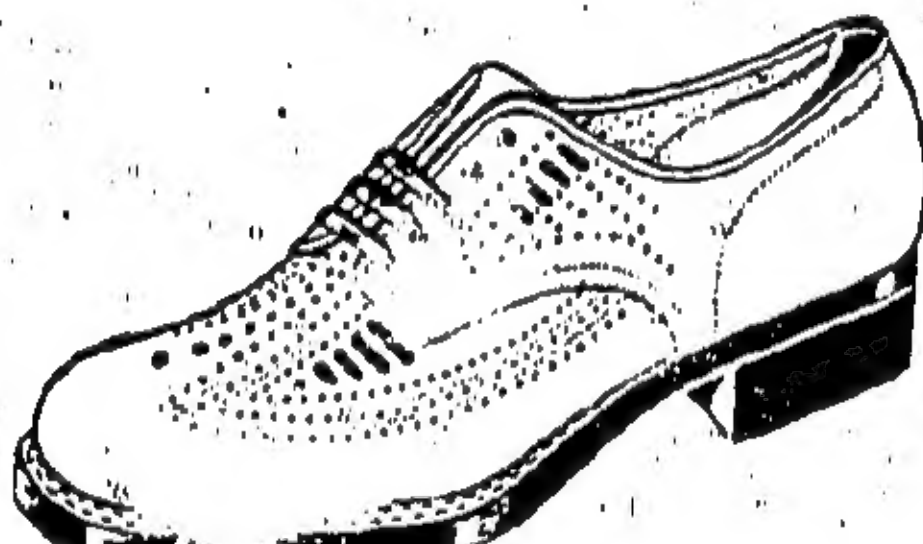

Test Case.

The trial is regarded as a test case which will reflect the whole position of political responsibility in Spain. It is attracting the interest of the whole country.

The Court retired at the end of the hearing to consider their judgment, which will be announced in a week or 10 days after its confirmation by the military judicial authorities.

ANTI-BRITISH MOVES

TIEN-TSIN, July 27 (T/Ocean)—

A Japanese military spokesman declared that the military authorities do not intend to check the anti-British agitation in North China.

Meanwhile, new anti-British measures are reported from Peking, on the coast, where all Chinese servants working in British households have been summoned to leave their employers immediately.

Anti-British committees in Tangku and Taku have circulated a request to all Britishers to leave these towns within the next 30 days.

guides you easily
to your station

When you turn to your station on this new Philips radioplayer, the Light-Beam Pointer travels slowly across the dial illuminating in turn a series of 'light windows'—300 in all—representing every practical wavelength between

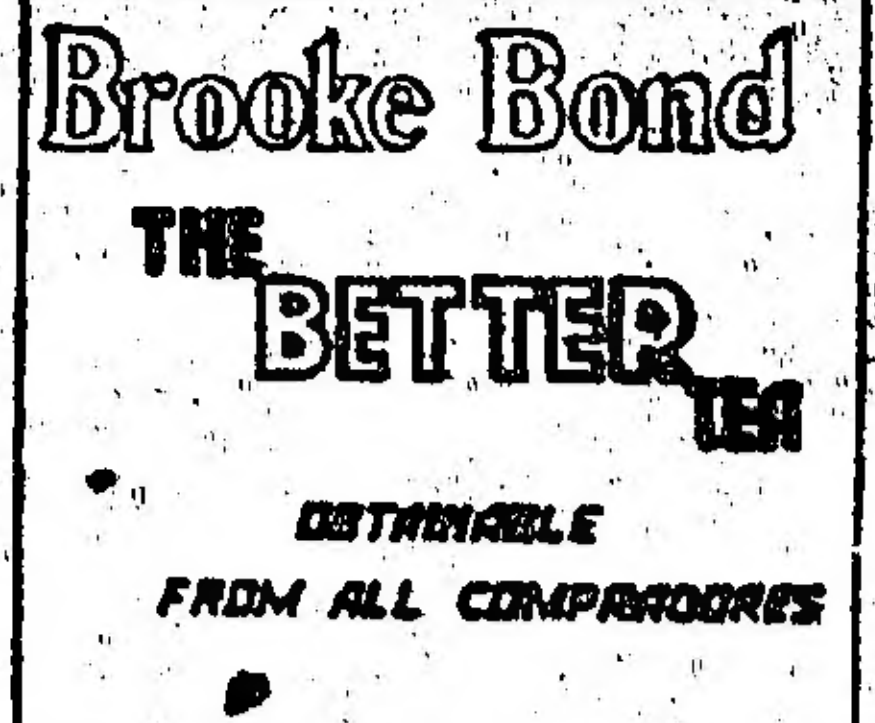

13.5 and 570 metres. No more fumbling and twiddling! Philips 'Light Window' puts you plumb on the spot every time. By dispensing, moreover, with the old-fashioned mechanical pointer moving in front of the dial, Philips have made it quite impossible to make an incorrect reading of the wavelength. The new Light-Beam Pointer is a thin sheet of light thrown directly upon the dial from behind, making station-finding 100% accurate on every waveband.

TYPE 288—7 valve Superhet with 100% efficiency, the new R.F. amplifier stage, 2 wavebands from 13.5—570m. Lighted Window, tuning with Light-Beam pointer and two speed tuning mechanisms. Local Station pointer—on the wave-change switch. Special Philips cabinet.

Sino-American Institute Meeting: Gen. Wu's Talk

(Continued from Page 1)

Sir Shouson Chow

In calling upon the speakers, the Chairman said: "This is the third luncheon meeting since the formation of our Institute and it gives me great pleasure to announce that since our last meeting we have had another 20 new members, making a total of 130 members."

This is an indication that our Society is getting more popular every day and I think that we as members should try to get more acquainted with each other, to interest each other, and to try and carry out our objects and aims."

To-day our guest of honour is General Wu Te-chun, former Governor of Canton. He is well-known to me here and it is not necessary for me to say anything about him in introduction.

He is our speaker to-day, and also we have another distinguished guest and visitor to Hongkong with us. I refer to Mr. Julian Arnold, American Commercial Attaché to China. Mr. Arnold is an old China hand, and I think he knows more about China and things Chinese than many of us here. He has also consented to speak to us, and you may rest assured that we will hear something very interesting this afternoon.

I would like to extend a hearty welcome to our many guests of different nationalities who have greatly honoured us with their presence here to-day."

GEN. WU TE-CHEN

Gen. Wu Te-chun said:—"Ladies and Gentlemen:—It is a great pleasure for me to have the opportunity to speak to you on the subject of Cultural Relations and Mutual Understanding among men. Personally, I feel very deeply the need of such an understanding, and you will no doubt agree with me that proper cultural relations will bring about this happy state of affairs more than any other means."

Some may contend that at a time like this the world is arming to its teeth, when argument, no matter how reasonable and convincing, is ineffective without a show of force, and when less fortunate people who have neglected their military preparedness are likely to be swallowed up without ceremony, it is idle to talk about cultural relations. They even go so far as to say that to waste time over it, merely encourages the mailed fist. To my mind nothing is further from the truth.

MUST RESIST AGGRESSION

Do not misunderstand me to say that we should not be prepared to resist aggression, for aggression in whatever form and started with whatever excuse, must be resisted with all our might.

On the other hand a clash of opposing forces has never brought better understanding and it never will. It is necessary therefore, to seek means other than brutal force to bring about the kind of peace desired by all. Mutual understanding is what is needed.

Mutual understanding was not known or practised in days when man lived for himself. He was little concerned with his fellow men except in what he could take from him. As time passed even the savage was compelled to recognise the principle of co-existence. For as the mode of life improved, he was forced to recognise that he could not live without the help and co-operation of others.

As culture exerted its influence, a new order was set up. The principle of co-existence, that is the principle of the right of every man to live equally and to make his particular contribution to the community as a whole, was thus born.

CO-EXISTENCE PRINCIPLE

This principle of co-existence, as we understand it to-day, should apply with equal force to the com-

munity of nations, for all nations must depend upon each other for progress and existence. Unfortunately this is not the case. The rights of the weak are frequently violated. The strong are separated by an unbridgeable gap of suspicion and jealousy.

The march of progress is thus momentarily halted. Millions of people are thrown into misery. Is it not time to seek a common ground to stand on and a common goal to strive for so that our suspicions may be cast away, our jealousies forgotten, our differences sunk, and our minds bound by a common tie?

To achieve this end we need something better than short-sighted selfishness, distorted nationalism, profiteering patriotism or selfish aggrandisement. We require some principle, which rises above all sense of barter and profit, something that is capable of building up world civilization and putting men on a lofty height never reached before by other animals. It is culture. Only cultural relations can lead to real mutual understanding.

Culture knows no racial difference or class distinction. It is universal. It is the mother of our civilisation. It is culture which has given our society its refinement, our art its prominence, our education its advancement, and our life its orderliness and comfort and happiness.

Since it is the desire of all men to live in peace and comfort, to enjoy the benefits of a refined and well-ordered society, and to have free and pleasant intercourse with other men, it is safe to conclude that development of cultural relations will bring about mutual understanding attainable by no other means.

And if our minds are directed concertedly toward this one noble goal—mutual understanding among men—there will be little room or time for quarrelling, rivalry or hatred. On the contrary all our efforts will be consecrated to the betterment of human welfare, the developments of arts and science, and the promotion of world peace.

WORLD INSTITUTES

Now Institutes of Cultural Relations have been organized in all parts of the world. I hope some steps will soon be taken to unite their efforts. I am sure such a move will lead to satisfying and widening of the sphere of its influence and activities.

To my American friends, I need only to point out the vast number of Chinese students receiving education in America, and the important influence they will exercise in the building of a new China. The fact that many American trained men are now at the head of our government and that many more are engaged in educational institutions and industrial enterprises is an adequate indication of what the Sino-Am. can relations have succeeded in doing.

It is most encouraging to note that during recent years an increasing number of Chinese professors have been invited to lecture or to occupy chairs in American universities. Missions of all sorts have exchanged visits between China and the United States. Such active cultural relations cannot fail to bring about a happier fusion of ideals and the strengthening of world brotherhood.

It was this thought which urged me to accept the invitation to speak. Ladies and Gentlemen, I thank you for your patience and for the privilege of speaking. (Loud Applause.)

JULEAN ARNOLD

Mr. Arnold said in part:—"I was very much taken up with our honoured guest's very eloquent re-

SEQUEL TO ACCIDENT: CLAIM FOR DAMAGES AGAINST EUROPEAN

An action claiming \$1,000 for damages due to personal injuries received, and repair of a motor cycle as the result of an accident, was instituted in the Summary Court yesterday before Mr. Justice R. E. Lindsell by Hoo Kam-tai, of No. 79 Kai Yan Road, Kowloon City, against A. G. Hargreave, of Imperial Industries Ltd.

Plaintiff, who is the son of Mr. Hoo Fook-ping, proprietor of the Bank Line, Ltd., was represented by Mr. Alfred Y. Hon, while Mr. F. G. Nigel appeared for the defence.

Mr. Hon stated that plaintiff was a student at the Lingnam University. He bought the motor cycle in February for \$850 through the Wing Hing Motor Repair Co., the vehicle being in good condition, there being only one crack in the fork.

On February 22, there was an accident involving the two parties, plaintiff being rendered unconscious and had to be taken to the Queen Mary Hospital for attention. His left wrist was broken, and when he left hospital the same afternoon he consulted a Chinese bone specialist, to whom \$350 was paid.

Repairs to the cycle were estimated at \$468.

PLASTER OF PARIS

Cross-examined by Mr. Nigel, plaintiff said an examination of his wrist was made at the Queen Mary Hospital, after which the wrist was put in plaster of paris. He was told to leave this on for three weeks and to return to hospital for attention at the end of that time.

Witness admitted that he ripped off the plaster of paris that same evening in order to be treated by the bone specialist.

His Lordship asked Mr. Hon how the claim could be supported in view of this.

Mr. Hon said his client was a Chinese and was entitled to treatment by Chinese medical methods if he wished. There was no question of his client making money out of the case.

Mr. Hon also mentioned that an effort at a reasonable settlement had been made, and plaintiff would not have proceeded with the claim if defendant had agreed to refund the \$350 paid for attention by the bone specialist and also to pay for repairs to the cycle.

GOOD CONDITION

Ho So, managing partner of the Wing Hing Motor Repair Co., O'Brien Road, Wanchai, said that when the cycle was sold to plaintiff, it was in a good condition and was very powerful. Many parts could not be repaired after the accident, and it was, in his opinion, necessary to fit new parts if the cycle was to be made safe for riding and rendered of the same condition as before the accident.

His Lordship said that he would like to inspect the cycle, and it was arranged that this should be done at noon to-day. Hearing of the case was then adjourned to 10 a.m. on Monday.

marks on his subject, which may be epitomized in the few words of a Chinese proverb 'Men of culture are brethren.' And I think that when the world comes to realize that we will have an entirely different world. That, I think, is the message which General Wu has conveyed to us so forcefully and so eloquently.

I was very much impressed once by the Sequoia trees, giants thousands of years old—the oldest living things in the world, overlooking the Pacific. On this side of the Pacific we have the oldest civilization in the world. When those trees were saplings in their infancy Chinese civilization was in its cradle, and the two grew up together."

ONE MISTAKE

Referring to Sino-American cultural relations, the speaker went on: "We have made one unfortunate mistake. We have done much to get the Chinese to understand us. We have returned a portion of the Boxer Indemnity Funds on the understanding that Chinese students used it to study in America, we have sent missionaries to China, etc., with the idea of helping the Chinese to stimulate modern methods in education and industry."

But we have fallen down badly in one respect. We have not sent American students to China to learn to understand the Chinese. I think in this we have fallen down on the idea of mutual culture."

So I think there is one thing this organization could do—to help speed up better dissemination of China and the Chinese amongst the American people.

To this end Mr. Arnold suggested that more facilities should be given for American men and women to come over to China and to understand the country and the people first-hand. The Lingnam Exchange Students scheme was one that was working out admirably and at Yenching and Peiping similar lines were being followed, but he suggested that more could be done.

CHINESE TOP M.I.T.

When he was in Boston some years ago, the speaker went on, he

met the President of the Massachusetts Institute of Technology who told him that on going over the records of enrolment in the M.I.T. since its inception, he had found that the Chinese group stood ahead of all other groups in the matter of scholarships—this included the American students.

The speaker thought, therefore, that in the matter of actual academic knowledge it was hardly necessary for the Chinese to go over to the United States; it would have been better if they had gone in for (football) and baseball, thereby learning team-work and learning how to follow the instructions of one captain or one coach.

Continuing, the speaker said that whereas these luncheon meetings were excellent as social gatherings, they really did not accomplish much. What was wanted was more action.

Here the speaker launched into details of the many ways in which organized activity could do much to improve Chinese industry and popularize Chinese products. He quoted the soy's bean, amongst other things, and wood oil or tung oil, the latter of which at one time was imported into the United States to the extent of \$20,000,000 a year, but which was now in danger of being substituted by another commodity, and then "good-bye to tung oil."

Mr. Arnold also touched on tea. Iced tea, he said, was becoming popular in America. There was a corps of 1,500 to 2,000 Chinese students at present in the United States and, if they formed themselves into a mission, so to speak, to popularize the drink, they might get a tea consumption ten times that of now.

"General Wu," he concluded, "gave a great example of practical culture when he built up that marvellous Civil Centre in Shanghai, which, we all hope, will soon be restored. I would like to see definite lines, definite projects, a definite programme, a definite Committee, so that in a few months or a year we may have something to see by way of practical results." (Applause.)

Sir Shouson Chow thanked both speakers.

HONGKONG, JULY 29, 1939

PRISON LIFE & JUVENILE OFFENDERS

IT IS HOPE that juvenile offenders will, in the not far distant future, be entirely segregated from adult prisoners. In making this remark, in the course of an address which he delivered before the Discussion Group of the Y.M.C.A. on Sunday last, Major J. L. Willcocks, Commissioner of Prisons in Hong Kong, pointed to what must be regarded as a serious lapse on the part of the Government of this Colony in not providing a separate prison or penitentiary for juvenile offenders, instead of allowing them to pass their periods of correction, as required by the law, in the company of hardened and habitual criminals. Those engaged in social work in Hong Kong will endorse the urgent need there is at present for such an institution, which should be established and run on the lines of the Borstal system. Such an institution will permit of young offenders being weaned from criminal tendencies and being trained to become useful citizens. There is not the slightest doubt that

Telephone To Chungking And Manila

The question of radio-telephonic communication with the Colony, which has been under consideration now for many years, has at last been proved a possibility, and the Colony is to be linked with the outside world by radio-telephone, at first with Manila and Chungking in about a fortnight's time. It is hoped that the service will ultimately be extended to other places.

Through the co-operation of the Hongkong Telephone Company, calls may be booked over the ordinary telephone system in Hong Kong, so that it will be possible to talk to subscribers in either Chungking or Manila from office desks or homes.

The present proposed rates for three minutes conversations are as follows:

To Chungking \$21
To Manila \$41

Successful experiments have already been carried out by the Cable and Wireless, Ltd. and the Hongkong Telephone Company, and it is anticipated that, before long, the Colony will, besides the two centres, be in link with other places on the globe.

THE WEATER

With a further fall of over an inch of rain during the last 24 hours, the total fall since the beginning of the year is now 65.58 inches as compared with an average of 51.28 inches.

The temperature yesterday was 82 degrees, with humidity varying from 84 degrees minimum to 88 degrees maximum.

the environment in which a youthful offender against the law finds himself when sentenced for some minor offence must have considerable influence on his future outlook and Major Willcocks, with the vast experience he has had in other parts of the world on this question, made a plea in his address for similar steps to be taken in this Colony to combat juvenile crime.

MAJOR WILLCOCKS stated that the legislation in Kenya did not permit imprisonment for juveniles for more than a period of three years and even that was to be spent in an institution organized on Borstal lines. The present congested state of Hong Kong offers a great deal of temptation to the idle youth to resort to minor crimes—partly for the very bravado of the act, but more owing to the difficulty of existence and the meagre chances there are to-day of finding work. Hardly a day passes without reports being published of youthful offenders having been caught in some form of larceny, snatching or petty theft and, despite punishment meted out to them in the courts, these cases show no signs of diminishing. These youthful law-breakers are sentenced to terms of imprisonment and, under the existing arrangements, no sooner are they sent to prison than they are brought face to face with the sordid criminal—the experienced thief, murderer and assassin. Under such conditions reform in their lives is rendered more difficult than ever.

THE ESTABLISHMENT of a juvenile court, without the paraphernalia of lock-ups and railed docks, must have beneficial psychological reactions on young minds if they are to be convinced that the object of the authorities is to advise them and to give them a chance to better themselves under kindness and careful guidance. From such a court, when taken to a separate place of correction—an island with natural boundaries instead of prison walls, as suggested by Major Willcocks—where they can be taught useful trades and made to conform to rules of regular behaviour and discipline, would do much to reduce the incidence of juvenile crime in the Colony.

CORRESPONDENCE

A.R.P. OFFICER'S APPRECIATION

[To the Editor, The "Hongkong Daily Press"]

Sir,—Would you please be kind enough to allow me to express my grateful thanks to all those men and women who so magnificently responded to my request to undertake some public A.R.P. duty, or to participate in one of the many training A.R.P. exercises which were held on Thursday night. From my own personal observation, those duties were carried out with speed, efficiency and tact.

I am convinced that if the Colony is ever put to the acid test of war, the community will be as proud as I am of the efficiency of their A.R.P. volunteers.

Finally, may I proffer my sincere thanks to the general public, and to all public and private undertakings for their unstinted co-operation.

Yours faithfully,
(Sgd.) A. H. STEEL-PERKINS
Air-Raid Precautions Officer.

FOUR CHARGES DISMISSED

Intimidation And False Pretences Alleged

Two charges of intimidation and two of obtaining money by false pretences were preferred against Tsai Tak-fai, 29, unemployed, when he appeared on remand before Mr. R. Edwards, at the Central Court yesterday.

Inspector Russell, who prosecuted, said that between June 1 and July 18 the defendant was alleged to have approached Ma Pui and Chan Tin-chu and threatened them to join a society. Tsai was further stated to have obtained sums of \$1 and \$3.80 from the two complainants, respectively.

A clerk from the S. C. A. testified that there was no register kept of the registrations of the guilds and societies in Hong Kong, but there was a record filed of the existence of such organisations.

Complainant's Denial
Ma Pui, first complainant, in reply to Insp. Russell stated that he did not know defendant and had not seen him.

Addressing the Court, Insp. Russell said: "Your Worship, owing to the statement made by this witness I cannot continue this case any further."

The first two charges against the defendant were then dismissed.

Chan Tin-chu, in his evidence, said that he had been approached by the defendant on several occasions and had paid a total sum of \$3.80 to him as entrance fees to the society and also a monthly subscription as demanded by the defendant. He told the Court that the defendant threatened him by stating that he would be assaulted if he failed to become a member of the guild.

A Chinese detective, who gave evidence next, stated in answer to a question, that he had seen defendant before when Tsai was arrested in connexion with the allegation of intimidation of students.

Charges Fall

Mr. Edwards stopped the case at this stage remarking that he found it essential to discharge defendant as evidence of a prejudicial character had been brought against the defendant. As to the charge of obtaining money by false pretences on the strength of the existence of the Tung Kwan Club, Mr. Edwards further remarked that the evidence was vague as there was no register in the S. C. A. to prove the non-existence of the Tung Kwan Club. The defendant was discharged.

BLACK-OUT INCIDENT SEQUEL

GERMAN SAILORS CONVICTED

TWO GERMAN NATIONALS, Reichard Block and Aemil Tauhart, were fined \$30 and \$50, respectively, when they were convicted before Mr. E. Himsforth at the Kowloon Court yesterday on a charge of assault on two officers of the Police Force during the black-out on Thursday night.

Block and Tauhart, who are sailors aboard the steamer Regensburg, denied the assault charge, and claimed, in evidence, that they had been attacked by the two officers, Sergt. Hewitt and Sub-Inspector Ng Chung-sing, and struck with truncheons.

The trouble, Sergt. Hewitt explained to the Court, had arisen from the defendants taking objection to being ordered to alight from rickshaws during the period of black-out.

Tauhart took off my cap and looked at the Crown," Sergt. Hewitt said. He then said, "You are a British. I am a German!" He then slammed the cap back on my head and caught hold of my throat.

FELL TO GROUND

A struggle ensued in which the other defendant joined in. The three of us fell to the ground. I got up and went to the assistance of the Chinese officer and the two men ran away. Later we found them sitting on the pavement in Halphong Road.

In making statements from the dock, both sailors claimed they were attacked by a number of police officers with truncheons. "I won't allow anybody to kill us," Tauhart said.

In imposing fines on the two defendants, Mr. Himsforth told them that to attack a police officer in the Colony was to commit a serious offence, but as he judged the first defendant had only joined in the fight because he thought his comrade had been wronged, he would fine him only \$30.

POLICE SEAMEN CHARGED

The case against seven seamen of the Water Police, who are charged with conspiracy to extort and extortion of sums of money from opium and heroin divan keepers in Kowloon, was continued before Mr. Q. A. A. MacLayden at the Kowloon Court yesterday.

Mr. J. B. Premis, Assistant Crown Solicitor, is prosecuting, and the defendants are represented by Mr. C. A. S. Rnas.

Concluding police evidence was heard yesterday, and the defendants made statements from the dock as to their whereabouts on the days when the divan keepers claimed they gave away their money. Further hearing was then adjourned to August 5, at 11.30 a.m., when the defence intends to call several witnesses.

Appearing before Mr. T. J. Houston at the Central Court yesterday charged with the possession of radio communication apparatus at No. 3, Breezy Path on June 20, without permission from the authorities, Ma Chang-kong, unemployed, and Li Wah, and Wong Tse-ying, spinners, were further remanded for seven days.

remarked that the evidence was vague as there was no register in the S. C. A. to prove the non-existence of the Tung Kwan Club. The defendant was discharged.

Hello & Goodbye

(BY A. W. HYER)

No doubt, yesterday the local public noticed the many red and white ship funnels of the N.Y.K. Steamship Co. in the harbour, the reason being that five transports of this company came in and out port. It is quite unusual to have such heavy traffic of one line in twenty-four hours.

The Taiyo Maru, from San Francisco, is carrying approximately 300 passengers who are round-tripping from the American west coast city to Manila. The majority of travellers on the passenger list are educators, writers and professional people out to see the Far East on their short summer holiday.

The Kasima Maru, which arrived at noon yesterday for a call of four hours, is carrying General Count Hsaiichi Terauchi, former Commander-in-Chief of the Japanese Expeditionary Force in North China, Admiral M. Osumi, of the Supreme War Council, and Mr. T. Izaka, Japanese financier. These three are on their way to Germany where they will attend the 11th Congress of the German National Socialist Workers.

The Consul-General in Hong Kong, Mr. A. Tajiri, greeted the visitors. Their short visit caused much excitement at the waterfront where police guarded Blake Pier and the surrounding territory where the visitors disembarked from the company's launch.

Pan American Airways

WHEN THE CHINA CLIPPER took off for San Francisco, on Thursday 8.50 a.m. via Manila, there was quite a gay group of interesting people travelling across the Pacific Ocean.

Mr. George Sellett, the well-known American attorney from Shanghai and legal adviser to the Intercontinent Corporation and China National Aviation Corporation, went holidaying mainly. Back to New York he will fly and probably join forces with Mr. W. A. Pawley, together they will "clipper" across the Atlantic Ocean returning to their respective desks in the Far East, by air across Europe.

Mr. W. W. Waymack came by air from Chungking and continues to the United States. His trip is partly a vacation with a few business calls along the route.

On a vacation is Mr. A. J. J. Hogenhuis who arrived from the Dutch East Indies, via Air France, this week. Most of his holiday will be spent flying around the world. Crossing the Pacific in the China Clipper, he will continue by plane to his home in Holland.

m.v. Gneisenau

THURSDAY, 10.30 a.m., the big German motorship came into the bay from Japan and Shanghai.

"Frau M. Ceil" read the name on the passenger list, and there at the Purser's office was Mr. Ceil of our American Express office, to greet his charming wife arriving from several weeks of visiting in Shanghai.

Mr. E. Schietz of Bohler Bros. and Co. just left our city and here he arrived on the German boat from Shanghai for another business call.

Business calling came Mr. H. Ganter from his desk in Shanghai. This gentleman deals in the paper under his own name.

Dr. Collin Ross, with his lively and interesting wife and a handsome young son, Ralph, have come visiting in the Colony. Nine years ago the family toured the Far East and now they are on another trip, this time using ships and a motor car. French Indo-China is the next destination in their travels and it will be a motoring expedition.

Imperial Airways

CAPTAIN L. J. M. WHITE and Captain J. N. Wilson took the week-end service of Imperial Airways' planes, Dorado and Denebola, respectively, off to Bangkok on Friday at 7 and 7.30 a.m.

Mr. J. Sale, arriving from Kobe by the m.v. Gneisenau on Thursday, spent a night's visit in Hong Kong and continued to England by the Imperial Airways service. He is in a business hurry! Down to Hanoi travelled Mr. T. Blake, and listed for Bangkok were Mr. A. Johnstone, of Dodwell and Co., and a "Mr. Foster."

Friday Arrival

THE FRIDAY 11.10 a.m. arrival of the Delphinus, with Captain Joe Davies doing the navigation work, brought 600 kilos of mail and no passengers. This was the service due in Hong Kong from Bangkok on Thursday afternoon, and which was delayed due to the Empire route service.

Empress of Canada

MISSING THE TIDE on her departure from Shanghai put the Empress of Canada a little behind schedule in her arrival in our port. Friday at 1 p.m. down the bay sailed the big white steamer in from Vancouver and Northern calls.

Mr. and Mrs. D. M. Biggar, appearing very well, were greeted by old friends. The manager of the Chase National Bank was returning from a splendid holiday of many months spent in the United States.

We did not have the pleasure of meeting Captain and Mrs. A. R. M. Bridge who have been travelling from London to Hong Kong. The Captain will join H.M.S. Eagle and settle down to the work of flying through the air.

We believe it was only recently that Mr. M. E. Nicholson, connected with the United States Treasury Department, was in our city visiting. Here he was arriving on another visit to our city from Shanghai.

Mr. E. Boxas is the Speaker of the House of the Philippine Commonwealth. This charming gentleman, who was showered with friendly greetings on his arrival from the United States with his attractive daughter Miss L. L. Boxas, intends to visit here for several days before returning to his family and friends in Manila.

Back from a Japanese vacation came Mr. and Mrs. G. R. Razavet, the local Traffic representative of Canadian Pacific S.S. Co. And true to his calling, when the steamer docked and visitors besieged the gangway, this gentleman was behind the Purser's wicket "at your service!"

The well-known Shanghai residents, Mr. C. S. Gubbay and Mr. J. S. Gubbay, came down from the North on a visit. Mr. L. Kadoorie was there to give them a warm welcome and any assistance.

Mr. and Mrs. A. J. Winter, with their young son Master J. Winter, will spend several days "looking over" Hong Kong, then continue to Batavia by a J.C.M.L. steamer. Accompanying this charming Dutch family are Mr. and Mrs. J. Hansens and their daughter, Miss L. J. Hansens.

Miss L. S. Hammond had an unfortunate end to her journey. This middle-aged traveller became quite ill on her voyage from Canada and it was necessary to remove her from the Empress of Canada by stretcher.

The Empress of Canada departed for Manila at mid-night.

HAITAN LIMPS INTO PORT

Extent Of Damage Not Known

The Douglas Steamship Co. Ltd.'s steamer Haitan, which struck a mine off Chung-chi Point several days ago, on the southbound voyage to Hong Kong, arrived in the harbour yesterday afternoon at 2 o'clock under her own steam.

The a.s. Haitan (2225 tons) is under the command of Capt. E. Waller and sails on a route from Hong Kong to Foochow via Amoy. Arriving in the bay, the steamer immediately proceeded to Comopolitan dock where the damage to her hull will be investigated. The extent of damage is not definitely known. However, according to Mr. S. T. Williamson representative of the company, it is not expected that the Haitan is badly damaged, and no official statement will be forthcoming until engineers have made an investigation.

There was only one first-class passenger on board the a.s. Haitan, Mr. A. Fisher, of the British American Tobacco Company, travelling from Foochow to Hong Kong.

Two married women were given some food for thought by Ma R. Edwards at the Central Court yesterday when they were told that human beings should behave differently from animals. The defendants, Yung Ku-tan and Li Yee, were covered with blood. They were charged with disorderly conduct by fighting, and pleaded guilty. They were each fined \$5 and were bound over.

AMERICA'S OBJECT LESSON TO BRITAIN IN HER FAR EASTERN POLICY

LONDON, July 28 (Reuter)—The Executive Committee of the League of Nations Union passed a resolution yesterday calling on the British Government to follow the lead of the United States by giving notice to terminate the Anglo-Japanese Commercial Treaty.

WASHINGTON, July 28 (Reuter)—Mr. Cordell Hull, U.S. Secretary of State, told a press conference yesterday that the basis of the new treaty with Japan would be determined in accordance with developments in the next six months.

The State Department, he added, would be able to say more about the subject in a month or two.

WASHINGTON, July 28 (Reuter)—Mr. Henry Morgenthau, U.S. Secretary of the Treasury, stated that the Treasury would study the question of future purchases of gold and silver from Japan in the light of the abrogation of the Treaty of Commerce.

The Treasury would also give a "fresh look" to the question of imposing higher duties on Japanese cloth as a counter-vailing measure to the export subsidies alleged to be paid by the Japanese Government.

In the meanwhile, according to the Dow Jones Agency, there is considerable speculation in Congress circles as to whether the denunciation of the Treaty might foreshadow the invocation of the Neutrality Act in the Sino-Japanese conflict.

Such action would automatically cut off supplies of American munitions to both China and Japan.

The curtailment of silver and gold purchases would be a serious blow to Japan, which in the past two years sold to the United States \$415,000,000 worth of gold and over \$4,000,000 worth of silver.

EXERCISE OF TREATY RIGHTS: POLITICAL REBUFF FOR JAPAN

LONDON, July 28 (Reuter)—By his sudden decision to denounce the American-Japanese Trade Treaty, President Roosevelt has shown the world that Democracies, on occasion, can vie with the totalitarian countries in tactics of surprise, declares the "Daily Telegraph" in an editorial.

America, after all, has done no more than exercise the rights conferred on her by the Treaty, whereas Japan, during the past seven years, has not hesitated to violate out of hand any treaty obligations which happened to conflict with her policy.

EVASION SOUGHT

Moreover, by refraining from a formal declaration of war on China, she has sought to evade the legal disadvantage of belligerency, while at the same time—for example in the Tientsin negotiations—claiming the advantage.

President Roosevelt's action will be a salutary reminder that she cannot go on indefinitely making the best of both worlds and that she cannot ride rough-shod over the rights of others without sooner or later provoking retaliation.

Unless we misread the signs, the time is arriving when America may feel herself, in the face of "the new developments" indisposed to maintain her past attitude of tolerance.

NO CO-OPERATION?

The "Daily Herald," referring to "the momentous developments in the Far Eastern policies of both the British and American Governments," says that on the face of things there is little appearance of consultation and co-operation in common policy. There is rather a seeming contrast, in policy.

On many previous occasions, assurances have been given of full and continuous consultation with the United States in the Far East. Does that assurance still hold?

The question is one that should be pressed in the House of Commons in the forthcoming Foreign Affairs debate.

POLITICAL REBUFF

The "News Chronicle" says that President Roosevelt's interventions in foreign policy are always resolute and often dramatic, but none more so than his notice to abrogate the trade agreement with Japan.

Whether an embargo results or not, the notice is a political rebuff to Japan of the first importance.

It has given timely encouragement to China, who has been somewhat mortified by the British agreement with Japan.

Whether President Roosevelt intended it or not, he has given the British Government an object lesson in Far Eastern policy.

LOCAL PRESS SAYS BRITAIN MUST ACT

Great prominence is given in the leading Chinese newspapers in Hongkong to-day to the United States' move to abrogate the Treaty of Commerce and Navigation of 1911 with Japan and the editorials in general highly commend the step, saying that it will administer a severe blow to Japan.

The influential "Ta Kung Pao" remarks that it must have come like a bombshell to Japan when she was elated over the success of the Tokyo conference. The American move, the journal opines, has more political than economic significance since it paves the way for an embargo on the shipment of war materials to Japan.

America's action is lauded as most timely, as it clarifies her attitude at a time when Japan is trying to obtain a "Munich" victory in the Far East, and when the United States is criticized for not having supported Britain in the Tokyo conference. The American action gives timely encouragement to Britain so that the latter will not make any more concessions in the talks.

TRIBUTE TO ROOSEVELT

The "Sing Tao Jih Pao" pays a glowing tribute to President Roosevelt for his far-sightedness and courageous action, and declares that the American move will deal a great blow to Japan morally and materially while giving China immense encouragement.

If the present step is followed by an embargo on the shipment of war materials, a crushing blow will be inflicted on Japan the interests of the United States in China will be effectively safeguarded.

The paper hopes that Britain will support the American action.

CIRCUMLOCUTION

LONDON, July 28 (Reuter)—According to Reuter's diplomatic correspondent, British circles state that while the moment of the American abrogation of the Commercial Treaty with Japan was perhaps suddenly chosen, it would be incorrect to describe the action itself as surprising.

The move showed that British and American policy in the Far East are working closely along parallel lines, although no attempt has been made—or would be made—by either Government to commit the other.

The action also naturally caused some circles in Britain to turn their minds towards a consideration of the utility of this method of attempting to protect their rights and interests in the Far East.

It should be recalled that Britain also has a commercial treaty with Japan dated 1911.

There is, of course, no desire to prejudice the success of the negotiations proceeding in Tokyo for the settlement of the Tientsin issue, but if action similar to that taken by the United States should be found to be necessary for the better protection of British interests, such action would not be excluded.

Tokyo Talks Hit Hitch

TOKYO, July 28 (Reuter)—It is understood that the Anglo-Japanese conference this morning discussed Japan's demands that Chinese silver in the Tientsin British concession should be handed over to the Japanese-sponsored North-China "Government" and circulation of the Chinese national dollar should be banned from the concession.

The newspaper, complain that divergence of views has arisen on both questions.

of the belief that the other ring and the watch were amongst the things stolen from two young girls in Bowen Road a few days ago.

Whetting Aggressor's Appetite

MOSCOW COMMENT ON TOKYO FORMULA

MOSCOW, July 28 (Reuter)—The first Soviet comment on the Anglo-Japanese Agreement appears in the Moscow press which declares: "The British concessions to Japan will only lead to a further whetting of the appetite of the Far Eastern aggressor and expedite the final elimination of British interests from all the Japanese-occupied areas in China."

6-Hour Session

TOKYO, July 28 (Reuter)—It is understood that the Round Table Conference yesterday morning made considerable progress in connection with the maintenance of peace and order in the British Concession in Tientsin.

The six-hour session in the afternoon was adjourned without reaching an agreement on the Japanese proposal for the prohibition of the circulation of Central Government notes in the British Concession.

Canton Fears

CANTON, July 28 (Reuter)—Kwantung notes were yesterday quoted a four per cent premium over National notes for the first time since the introduction of the latter into Canton due to the heavy demand for Kwantung notes following the fear that any Anglo-Japanese currency agreement in North China may include the prohibition of the circulation of National notes in Canton.

DISASTROUS EXPLOSION IN ALGIERS

WAREHOUSE GUTTED BY FIRE

ALGIERS, July 28 (T/Ocean)—At least five were killed and about fifty injured in an explosion and fire catastrophe at the quays of Algiers on Thursday. The condition of fifteen injured is so serious that they are not expected to live out the night.

The catastrophe originated from an explosion of a reservoir containing Butane gas, due to the intense heat broiling over the harbour. The explosion was heard in the whole town.

The fire quickly spread to the warehouse of the Cherifis Company, filled with sugar and other goods, and to the steamer, Saint Ambrose, lying in the harbour which had tanks with Butane gas of about 75 tons on board. While the Fire Brigade succeeded in getting the fire aboard the ship under control, the warehouse was entirely destroyed by flames.

A number of dock workers were hurled some distance away by the explosion, while others, like living torches, jumped into the sea.

The damage is estimated at more than fifteen million francs.

EXCITEMENT IN QUEEN'S ROAD CENTRAL

EMERGENCY UNIT SUMMONED

Great excitement was caused in Queen's Road Central, near the Central Market, about 9 p.m. last night when an Indian, alleged to be in a highly intoxicated condition, created a disturbance at the newly-opened Colombo Cafe and the Emergency Unit had to be called.

According to eye-witnesses, the Indian went into the cafe and demanded wine. When told that no wine was served at the cafe, he picked a quarrel with one of the foks.

When it was observed that he would not be reasonable, the foks ejected him by force from the cafe and stood at the door to prevent his re-entry. At the same time, the police were notified by telephone.

The Emergency Unit arrived shortly afterwards and, picking its way through the large crowd that had gathered, took the Indian to Central Police Station.

WHITE WINE

Considerable quantities of white wines are consumed without much thought being given to their selection. Yet a little care in choosing the right wine to suit your menu will be amply repaid by the pleasure you can give your guests.

We have a large choice of white wines in stock ranging from the rich sweetness of Chateau bottled Sauternes to the driest of Hocks and it is our pleasant duty to satisfy every individual palate. Let us advise you on your next purchase.

I.R.A. TERRORISTS ACTIVE

74 STICKS OF GELIGNITE FOUND ON ELECTRIC PYLON

LONDON, July 28 (Reuter)—Seventy-four sticks of gelignite were found attached to a pylon carrying electric wires in a field in Down Holland, near Ormskirk, two miles from the scene of the bridge explosion earlier yesterday.

Two farm labourers found bundles of gelignite connected to a battery and an alarm clock two hours before it was timed to go off.

Following the discovery, the police are examining all pylons in the district.

A WARNING
Meanwhile, even more stringent precautions are being taken at railway station luggage offices and elsewhere, including Hampton Court, following receipt at the local police station of a post card containing a warning worded: "Clear Hampton Court Palace residents out. We don't want to kill women."

INTERMENT FOR SUSPECTS

(Continued from Page 1)

The Belfast police to-day are watching incoming boats for suspected terrorists escaping from England but it is thought that, owing to the fear of internment, they will go to Eire and not Northern Ireland. It is believed that if any of the deported persons are natives of Northern Ireland they will be sent to Belfast where the authorities will have no option but to intern them under the Special Powers Act.

130 Outrages

LONDON, July 28 (Reuter)—Moving the second reading of the Prevention of Violence Bill to deal with the I.R.A., in the House of Lords yesterday, Earl De La Warr, President of the Board of Education, said that hitherto there had been 130 outrages.

Millions of sterling damage had been done already, two persons were killed and 75 more or less seriously injured in the country from one end to the other.

It was decided, he said, that these things must stop.

Earl De La Warr described the "Bill" as having been prepared with the thoroughness of any military General Staff. He said that Sir Samuel Hoare was prepared to accept an amendment requiring him to report activities under the Bill every three months to Parliament.

Lord Snell said that although the Labour Party could not resist the Bill they could not applaud it but no Government, whatever the Party, could possibly allow "a foreign fed rebellion of this kind to go unoppressed."

The Prevention of Violence Bill has received Royal assent after being rushed through the last stages in Parliament.

Three Men Remanded

LONDON, July 28 (Reuter)—Three of the four men arrested and detained in connection with the explosions at London's railway stations were charged to-day under the Explosives Act and were remanded for a week.

PALESTINE ARMED GANGS CHECKED

LONDON, July 28 (BWS)—Reports from Palestine, received in London, show that there are encouraging symptoms of a decline of the rebel movement.

During the first fortnight of the present month, 34 rifles, 2 shotguns, 10 pistols and a quantity of ammunition were voluntarily surrendered by villagers. During the same period, 1000s captured nearly 200 rifles and 40 pistols, 16 shotguns and large quantities of ammunition.

TRAFFIC CASES

R. Poinot, of the "Little Shop," Gloucester Arcade, was fined \$25 by Mr. R. Edwards, at the Central Court yesterday, for overtaking and passing a moving vehicle at Wyndham Street, near the Dairy Farm, on July 18.

Pleading guilty, Poinot said he thought the car in front of him was about to stop, as the vehicle was travelling very slowly.

Traffic Sub Inspector Clark said that the defendant had a previous conviction for dangerous driving in 1932, one for speeding in 1933 and in the same year he was convicted for dangerous driving. He had his driving licence suspended for a period, and again in 1938 he was fined for excessive speed.

Miss E. M. Kelly was fined \$2 for parking her car in Connaught Road car park over the time limit on July 5.

A fine of \$5 was imposed on Mrs. V. E. Duclos, of No. 8, Macdonnell Road, for allowing her motor to remain stationary near the Hongkong and Shanghai Bank longer than necessary on July 15.

P. P. Poteltho was fined \$10 for driving at an excessive speed of 23 miles in Queen's Road East, on July 15.

nephew, Chan Kwan-plu, about 445 p.m. when she was held up by two armed men at the top of Monmouth Path.

Whilst one of the men stuck an automatic pistol at her throat and removed a gold bangle and a gold ring from her hand, the other snatched the handbag which her nephew was carrying.

Men Escape

The robbers then ran down Monmouth Path but were seen by Indian constable B160, who gave chase. One of the robbers fired a shot at the policeman, but fortunately missed him. The chase was kept up for a distance, but the men managed to elude capture.

The Indian then returned to the scene and took the woman and her nephew to Wanchai police station to make a report.

As their statements were being taken down, Detective C108 Tang Ka walked into the station with a Chinese whom he had arrested a few minutes before in O'Brien Road. The latter was immediately identified by the victims of the robbery as one of the men who had held them up in Monmouth Path.

GUN IN GIRL

The detective, who was one of the central figures in the sensational shooting affray in Dundas Street, Kowloon, about two months ago, said that he found the man acting suspiciously in O'Brien Road and, on searching him, discovered an automatic in his girdle and a gold bangle, two gold rings and a watch.

The bangle and one of the rings were identified by Ku Hon-chin as her property. Police are

CATHOLIC NEWS & NOTES

THE LOSS OF THE POSEIDON: BISHOP'S WARTIME CONSECRATION: THEO MATHEW: PIONEER OF SLUM WORK

Special to the "Hongkong Daily Press"

The "Theis" disaster has brought to the mind of many the loss of another British submarine, the Poseidon which was rammed and sunk off the China coast, near Wei-hai-wei, in 1931. The hero on that occasion, Petty Officer Patrick Willis, was a Catholic, whose action in saving the lives of several of his comrades under terrible circumstances was applauded throughout the world.

When the Poseidon was sunk without any possibility of refloating Willis and about twenty companions found themselves trapped in the fore part of the vessel. Willis at once assumed command and set about plans for rescue. With great coolness he first explained the gravity of the position and got the men to say a prayer aloud with him.

There was no light except that of hand torches, for the electric lighting system had been put out of action by the impact. Willis supervised the escape of the men by means of the Davis apparatus, and had an extremely narrow escape from being himself blown through the hatch while helping others to escape.

For his gallantry he was personally thanked by King George V. awarded the Albert Medal and promoted to the rank of Chief Petty Officer. He is still in the Navy.

Wartime Consecration

The ceremonies of a bishop's consecration are regulated by very ancient Church usage, but in certain circumstances they may be modified by the permission of the Pope. Such permission had to be granted in order to carry out the consecration of Bishop Cleary who was recently appointed Vicar Apostolic of Nanchang, in Southern Kiangsi.

The presence of three bishops is ordinarily required for a bishop's consecration, but a dispensation from this was granted on this occasion as it was only possible for one bishop, Mr. O'Shea, Vicar Apostolic of Kanchow, to be present. The ceremony was as simple as possible owing to the war conditions.

The new Bishop was one of a group of priests, professors in Maynooth College in Ireland, who relinquished their positions to form St. Columban's Foreign Mission Society, for work in China. He was considered one of the ablest men of his generation in Ireland and his personal popularity led many of his students to follow his example. As superior of the mission of Nanchang he succeeded Fr. Tierney who died in captivity among the Reds in 1931.

The death of Mr. Theobald Mathew, "Theo" Mathew to a host of friends, at the age of seventy-two, has removed one of the best known members of the English Bar, and the last of the big legal figures whose careers started in this last century. He was the eldest son of Lord Justice Mathew and one of a distinguished group of old Oratory School boys who were there in the lifetime of Cardinal Newman.

He became a barrister in 1890 and was successively Recorder of Margate and Maidstone until his retirement three years ago. He became a Bencher of Lincoln's Inn in 1916. He was pre-eminent as a practitioner in libel cases. He served on the Bar Council and as far back as 1895-97 edited "Commercial Cases."

It was for his personal popularity rather than for his legal eminence that he was best known. He was one of the witliest men at the Bar, and had a kindliness of heart which won him great affection. He was famous as an after-dinner speaker and was an admirable raconteur. He was also a gifted artist with the pencil, and delivered many a dainty hour in court by handing round sketches of the judge and members of the jury.

He was the anonymous author and illustrator of the four volumes of "Forensic Fables," and also published a book of more serious essays "For Lawyers and Others." He also wrote a valuable legal work "Practice of the Commercial Court."

He was the grand-nephew and namesake of Fr. Mathew, the Irish temperance apostle, and the cousin of Bishop Mathew, who was recently appointed Auxiliary Bishop to Cardinal Hinsley. He

was for several years a member of the Committee of the English Catholic Truth Society.

Slum Clearance

Another well-known English Catholic, who died recently was Alderman Hubert Leicester, who had been five times Mayor of Worcester. He was honoured with a knighthood in the last King's Birthday Honours, but he died before it was conferred. It was often said of him that no one in modern times had given such public services as he to his native city of Worcester.

He was an honorary freeman of the city and had also been presented with a painting of himself by the city council and magistrates. As mayor he was one of the first civic heads in England to start a campaign for the demolition of the slums and the improvement generally of housing conditions in the city. He also devoted much time to educational and hospital work.

Alderman Leicester was a life long friend of Sir Edward Elgar. Elgar recalled that as a boy he told his mother that he was going somewhere she would ask: "Who are you going with?" And if he said "Hubert" it was all right, for she used to say "Wherever Hubert goes you may go."

Hubert, he also recalled, would always blow the organ for him when he wanted to practice, on condition that he played a certain piece by Mozart which was his favourite. His interest in music continued all through his life and he was choirmaster in the Jesuit Church, St. George's, Worcester, for more than fifty years.

He served Mass daily for even a longer time. He received from the Pope the honour of Knight Commander of the Order of St. Gregory in 1914. He was the author of many books including "Forgotten Worcester," "Worcester Remembered," and "Notes on Catholic Worcester."

LESSON SERMON

FIRST CHURCH OF CHRIST, SCIENTIST, HONGKONG
SUBJECT—LOVE

The subject of the Lesson Sermon in all Christian Science churches to-morrow, July 30 will be "Love."

The Golden Text will be:—"Keep yourselves in the love of God, looking for the mercy of our Lord Jesus Christ unto eternal life." (Jude 1: 21)

Among others the following citations will be read from the Bible:—"And we have known and believed the love that God hath to us. God is love: and he that dwelleth in love dwelleth in God, and God in him. Beloved, let us love one another: for love is of God; and every one that loveth is born of God, and knoweth God. He that loveth not God, he knoweth not God; for God is love. If a man say, I love God, and hateth his brother, he is a liar: for he that loveth not his brother whom he hath seen, how can he love God whom he hath not seen? And this commandment have we from Him, That he who loveth God love his brother also." (1 John: 4: 16, 7, 20, 21)

The following citations will also be read from the Christian Science Text-book, "Science and Health with key to the Scriptures," by Mary Baker Eddy:—"Love alone can impart the limitless idea of infinite Mind. It should be thoroughly understood that all men have one Mind, one God and Father, one Life, Truth, and Love. Mankind will become proportion as this fact becomes apparent, war will cease and the true brotherhood of man will be established. Having no other gods, turning to no other but the one perfect Mind to guide him, man is the likeness of God, pure and eternal, having that Mind which was also in Christ. With one Father, even God, the whole family of man would be brethren; and with one Mind and that God, or good, the brotherhood of man would consist of Love and Truth, and have unity of Principle and spiritual power which constitute divine Science." TORRENTIAL RAINS AND FLOODS

NORTH CHINA DISASTERS

PEIPING, JULY 28 (REUTERS).—TORRENTIAL RAINS ARE THREATENING NORTH CHINA WITH DISASTROUS FLOODS AND HAVE ALREADY STOPPED JAPANESE MILITARY OPERATIONS.

Of the four railways out of Peiping, only that to Mukden is running, the others being under water at many places.

A rise of ten feet in the Yung-tung River caused damage to the famous Marco Polo Bridge, where the present war started, while Tungchow, a city east of Peiping, is under six feet of water. Hundreds of houses in Peiping and its vicinity have collapsed, causing several deaths.

Guerillas' Daring
These conditions have made the Chinese guerrillas more daring and they fought an action with the Japanese at a post 20 miles north-west of Peiping on Monday, when they killed 90 Japanese troops.

They then approached one of Peiping's city gates, about 200 strong, and abducted 28 Chinese, including a Japanese employed in the police and wealthy residents, for ransom, before the Japanese troops arrived on the scene.

"ON BORROWED TIME:" ON THE SET

A ROADSTER, VINTAGE UNCERTAIN, MEANDERED CASUALLY DOWN THE MAIN STREET OF CHATTFIELD WITH LIONEL BARRYMORE AT THE WHEEL AND A QUANTITY OF FISHING TACKLE STICKING OUT BEHIND. EIGHT-YEAR-OLD BOBS WATSON, SITTING PROUDLY ALONGSIDE BARRYMORE, PATTED THE WHEEL.

"Year in, year out, runs like a song," Barrymore agreed. "Loyalty, that's what she's got—loyalty."

There came a loud blast from the motor. The car leapt forward, rocked and stood still. At the same moment, church bells, close by, pealed out loudly. Barrymore and Bobs sat with poker faces, avoiding each other's eyes. The former dropped his hands from the wheel and resignedly relaxed. Another blast made the two occupants jump violently. The car rocked convulsively ahead for a few feet and subsided with a snort.

Remarkable Behaviour

The church doors swung open and the congregation flocked decorously down the steps just as the car's radiator cap suddenly shot into the air with an explosion, a keiser of steam spurting up.

At the entrance to the church Charles Waldron, as the Reverend Murdock, was bidding farewell to his flock Beulah Bondi, as Granny, was speaking to him, leaning on the arm of Elly Malyon as Aunt Demetria.

The shrill hissing of the car had drawn the eyes of all in its direction. Several youngsters had run down the church steps and up to the ancient vehicle to inspect its remarkable behaviour. Their elders either laughed outright or stared with varying degrees of disapproval.

"She sure picked a sweet place to stop, Pud," whispered Barrymore to Bobs in a stage aside.

"Sure did, Gramps," answered young Watson.

And the first comedy scene of Metro-Goldwyn-Mayer's "On Borrowed Time" was in the bag.

"Not scared of riding with me, are you Bobs?" Barrymore kiddingly inquired of his passenger.

"Me? I should say not," replied the eight-year-old. "In 'In Old Chicago' I rode in a covered wagon, with Alice Brady driving."

SEA BATTLE FOR SCREEN

The big superdreadnaughts that so frequently plow the newsreel seas in our theatres may be the pride of the American Navy. But it took the frail splintery, 110-foot submarine chasers to write the most dramatic chapter in World War naval history.

Included in the cast of "Submarine Patrol," which is at the Majestic Theatre, are Richard Greene, Nancy Kelly, Preston Foster, George Bancroft, Slim Summerville, John Caradine, Joan Valerie, Henry Armetta, Warren Hymer, Douglas Fowley, J. Farrell MacDonald, and Maxie Rosenbloom.

Darryl F. Zanuck, in charge of production for 20th Century-Fox, selected John Ford, Academy Award winner, to direct this important film.

MOSCOW TALKS PROGRESS

REPORTS TREATED WITH RESERVE IN FRENCH PRESS

PARIS, July 28 (Reuters).—Suggestions that the forthcoming military talks between the British and French missions and the members of the Soviet General Staff signify that political agreement has been virtually reached are treated with reserve in the press.

"Not Quite Correct"
"Les Temps" writes: "It is not quite correct to say that the way to an agreement has been entirely cleared as a result of the last talks in Moscow. What appears to be confirmed is that the conversations are now developing in a better atmosphere than previously."

The "Journal des Debats" urges the advisability of the Soviet Union terminating the Soviet-German non-aggression pact which was signed in 1936.

Another Meeting
MOSCOW, July 28 (Reuters).—Sir William Seeds, the British Ambassador in Moscow, M. Nagliar, the French Ambassador, and Mr. William Strang, Britain's Special Envoy, had a further ninety minutes meeting with M. Molotov at the Kremlin yesterday afternoon.

The negotiations are believed to be proceeding satisfactorily, but to-day's meeting is stated to have been indecisive.

POLISH-GERMAN FILM AGREEMENT TERMINATED

WARSAW, July 28 (T/Ocean).—The Association of Polish Cinemas and Theatres has notified the Polish film industry that the film agreements with Germany will be liquidated. German films would thus once and for all be eliminated from Polish film life.

As the "Wieszei Warszawski" reports, concerning the matter of financial obligations for those films that were displayed before, these obligations will have to be met. A special commission is to be appointed to decide that compensation should be paid for any use of films after that date.

Moreover in the near future the use by the Polish film industry of unexposed films of German origin is to be forbidden. Up till now Poland has bought from Germany several millions metres of unexposed films.

ROBERT BENCHLEY'S DOUBLE BANG

Robert Benchley started his 1939 Hollywood career off with a bang. In fact with a double bang. The Metro-Goldwyn-Mayer comedian is appearing in two pictures without a day of rest between.

Currently, Benchley is appearing in his latest dissertation, "Bee-Sting." As soon as that film is finished, he will go home, get a good night's rest, and report the very next morning to do his next comedy, "Day of Best."

Basil Wrangell is directing both one-reelers from Benchley's scripts. Jack Chertok is producer of both.

SHORT SUBJECTS

Metro-Goldwyn-Mayer announces two purchases for its short-subject department: "Slot Machine Racket," an original unpublished story by Eric L. Ergenbright, and "The Life of Hugo Grattus" by Joseph Ansen.

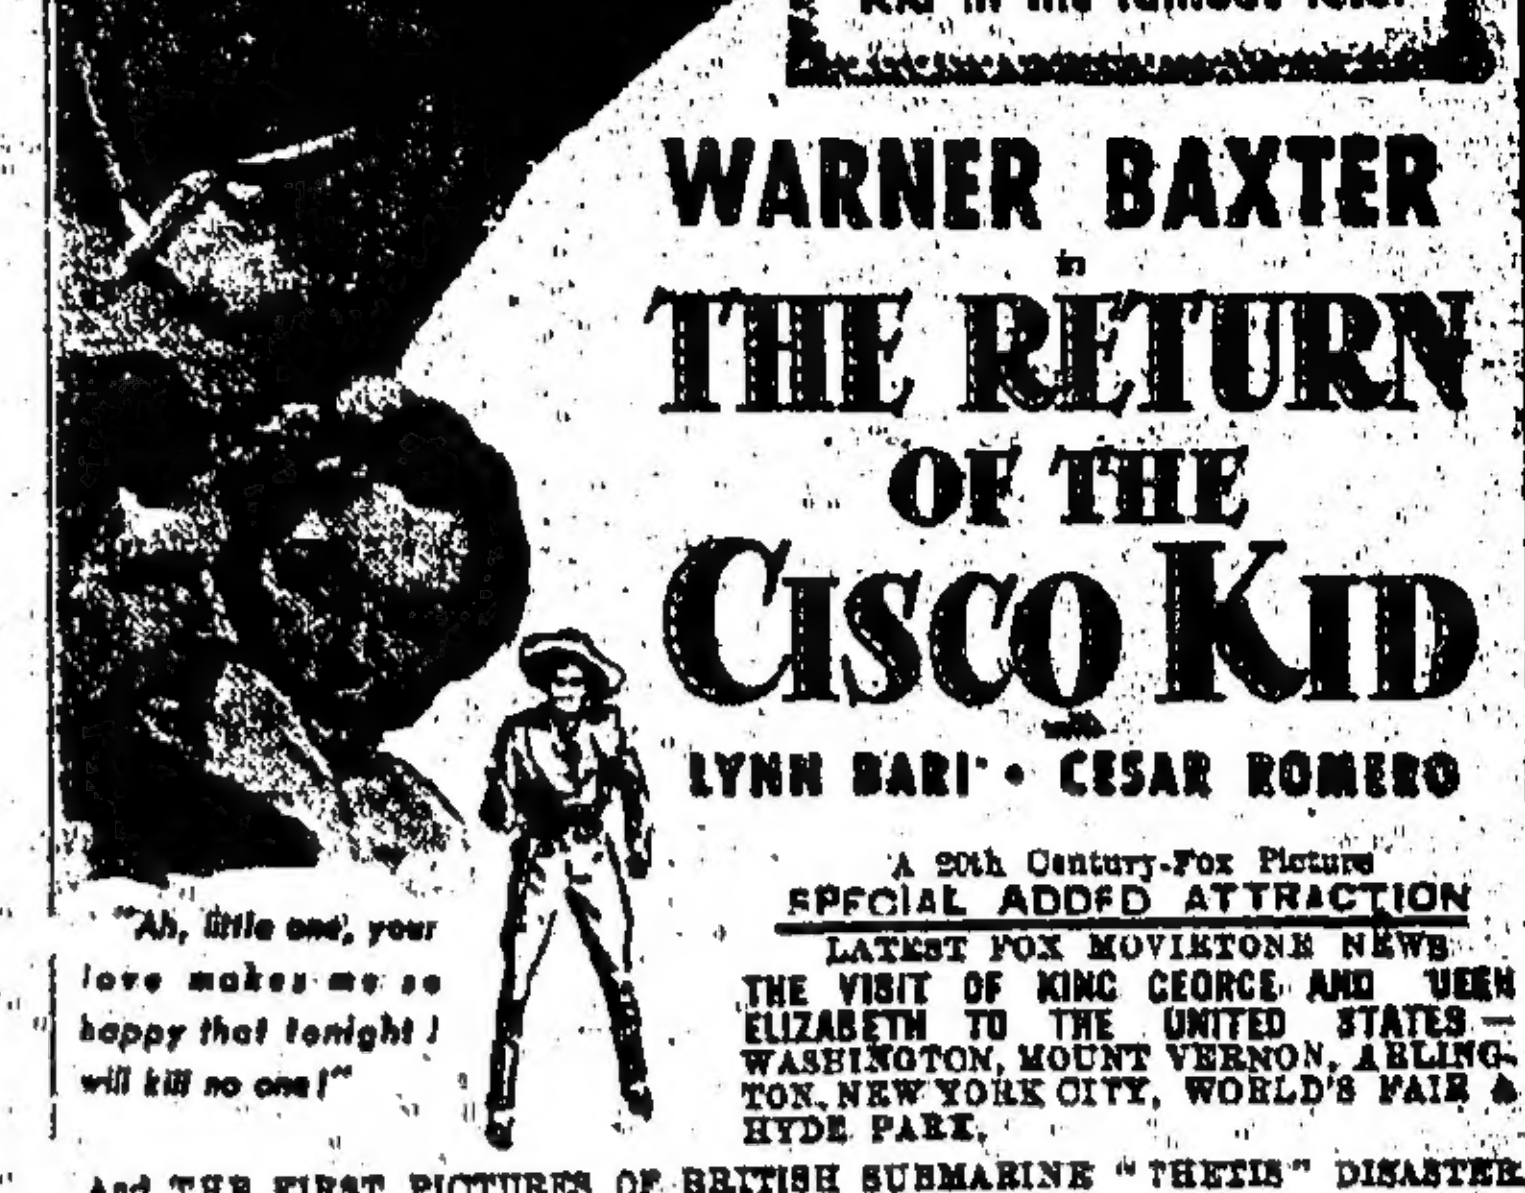

"Miracles For Sale" which features Robert Young, Florence Rice, Henry Hull and Lee Bowman, is now in production at the Metro-Goldwyn-Mayer studios. Tod Browning is directing the production from a story based on the novel, "Death From a Top Hat," by Clayton Rawson.

WAR TIME WORK She Found OF CHINESE Y.M.C.A.

The Y. M. C. A. which has its motto "Service Above Self" is one of the many worthy movements in China which Japan has failed to crush. Destroyed or occupied buildings, dislocated membership and other damages and hardships imposed by war have only meant greater and more enthusiastic service to the people from the "Y" workers.

Most praiseworthy is the emergency service rendered by "Y" workers to Chinese soldiers in spite of difficulties in communications. According to Mr. F. Y. Hsiao, field director for this service, on February 18 four units were operating in the Shensi-Honan area, and five units in the Hunan-Kiangsi area. In addition, there are four newly-organized units in the Chekiang-Anhui area. Steps are being taken to extend the work to 30 units covering the entire war area.

Relief work among students has been carried on in co-operation with the Y. W. C. A. in 13 centres since fighting began in Shanghai. The work of all the local committees is co-ordinated by a National Student Relief Committee. In addition to funds raised in China, money has come from the Far Eastern Student Emergency Fund in America and the International Student Service in Europe. Aid given to students includes work-scholarships and travel aid. Student hostels have been started, as have student community centres in several cities. (C. I. C.)

AMERICAN ENVOY ENTERTAINED

Chungking's diplomatic corps, foreign residents and leading Chinese officials were all present at Dr. H. H. Kung's tea party given in honour of Mr. Nelson T. Johnson, American Ambassador to China, who had recently returned to the seat of the Chinese National Government after a home leave.

In his capacity as president of the Chinese-American Institute of Cultural Relations, Dr. Kung welcomed the American envoy back to Chungking. In his short speech, he paid a high tribute to the guest of honour for his persistent efforts at improving the friendly relations between the United States and China.

Responding, the American Ambassador remarked that the Chinese-American Institute of Cultural Relations is a very useful organization, and expressed the hope that it will successfully meet one of its requirements, namely, helping the 24 per cent of the American people who had no definite views on the Far Eastern war, make up their mind. (C. I. C.)

FORTHCOMING MARRIAGES

The following forthcoming marriages are announced:—

An agricultural, mining and commercial control committee has been formed by the Ministry of Economic Affairs for the purpose of studying measures for controlling commodity prices. The execution of suggested measures may either be assigned to the local authorities or to the Price Fixing Committee of the Ministry of Economic Affairs. The prices of daily necessities will also be controlled and officially fixed from time to time, with a view to preventing profiteering and speculation.

Protection Of The Young Girl's Skin

The line of demarcation between the little girl and the young woman is a fine one. The transformation comes suddenly, so that sometimes before our very eyes this strange change takes place.

Therefore it is about the young skin, the girl in her teens that I write to-day. What is advisable for a mature skin does not hold for the fresh, girlish one, and a good deal of harm can be done by the use of too many cosmetics on that schoolgirl complexion.

IF NEGLECTED.
Blackheads, pimples and some times acne are a consideration. If these are neglected permanent injuries may result, and if they are not properly cared for scars may tell the tale the rest of her life.

Just what should a girl do to keep her skin healthy? How often should she use soap and water? How often creams? What should she do for blackheads, are a few of the vital questions.

Study and discuss the important point of beauty for the young girl with your doctor and reliable beauty parlour expert.

THE FOUNDING OF TOC H Symbolic Carpenter's Bench

The circumstances in which he founded Toc H were recalled by the Rev. P. T. B. Clayton, Chaplain to the King, in an address at the annual service of the "A" (City of London) Squadron of the Legion of Frontiersmen, held at St. Lawrence Jewry.

After the service the Lord Mayor, who was received by Brigadier-General E. Morton, Commandant of the Legion, and Captain A. Lazenby, Commander of the Squadron, inspected the parade in Guildhall courtyard.

The Rev. P. T. B. Clayton, after paying a tribute to the achievements of the Legion, said he would not preach a sermon, but spin a yarn instead. He told the story of the Ypres Salient and of how 20,000 men held back the German Army.

The Germans, he said, refrained from attacking because they could not conceive that anybody would be so foolhardy as to try to hold the ridge with a handful of men. They suspected a trap, and he recalled how a British officer went up in one of the earliest aeroplanes for reconnaissance, and when he returned after about half an hour said the country was grey with German uniforms.

During the night the German Army bent back both flanks of the defending forces and formed what became the Immortal Ypres Salient. As a junior chaplain he was sent to Poperinghe, which was being shelled almost day and night.

House property, said Mr. Clayton amid laughter, was very cheap, and eventually he obtained the biggest house owned by the biggest brewer, who had no further use for it. That house eventually became the headquarters of Toc H.

It had practically no furniture, but in the garden there was a carpenter's bench, and remembering that Christ was a carpenter the movement, and there was now no more sacred piece of wood in existence. Countless thousands of people had visited the house since then.

Books for Indian Villagers

LONDON, July 19 (By Air Mail)—Every villager in the United provinces, who learns to read and write, is to be presented by the Provincial Government with a book so that he may not forget what he has learnt.

This scheme is the successful anti-illiteracy campaign started by the government at the end of last year.

A series of movie pictures made by the Central Motion Picture Station of the Chinese National Government, which depict the martial spirit and war scenes in China, are now being shown in Kunming, capital of Yunnan. These pictures will later be shown to overseas Chinese in Burma, Annam and other places.

TREND OF THE STAMP MARKET: SURVEY OF CHANGING PRICES

By Roger Thesacins

THE 8D., 9D. AND 10D. VALUES ISSUED 1931-8 BY SOUTHERN RHODESIA ARE SHORTLY DUE FOR A RISE. Present catalogue indication is biased in favour of the 10d. as being the scarcer of the three used stamps, whereas the first two are much less frequently seen in fine condition. They are worth all of face, with the 10d. a point or two less.

An apparently common little stamp, the 175fr. in the newer "Ceres" type issued by FRANCE in 1938, is due for a 100% rise, while the Curie, Cezanne and La Fontaine commemoratives will also appreciate within the next few months.

A very infrequently seen and quite obscure "value from this popular country" is the 5f. carmine issued on May 2nd, 1925 in the old "Peace and Commerce" design. It is listed as a single stamp, though (as the footnote indicates) was originally issued at the International Philatelic Exhibition in sheets of four. As a single it is worth three-quarters of catalogue, and hard to find even at that figure.

Two other totally obscure values, equally hard to find, come from BELGIUM. These are the 75c.+25c. purple and 1f.+25c. lake, issued in 1934 to aid the War Invalids' Fund. Except the "plus" sign, often overlooked, there is hardly anything to distinguish them from normal definitive issues, with which they are frequently confused. Look out for these at about two-thirds catalogue.

At their present level nicely used GRENADA Jubilee sets are a reasonable proposition, and should show a rise next autumn.

GREECE is rapidly attaining a popularity of no mean order, and with this factor greatly assisting, I predict an early increase in all values of the 1933 "Government Air Issue." The biggest comparative increase should be in the 10dr. carmine, though complete sets are preferable as an investment.

The 1938 trio issued to commemorate the wedding of Paul and Princess Margarita are also due for a rise; they can be picked up very cheaply at present.

Collectors of TURKS AND CAICOS should make a point of completing their 1921 Script set, especially in used state. It is, of course, a dear set to buy, but were it not for the fact that this Colony is not in the front rank of popularity, it would be much higher. At its present market price it is one of the safest investments in the catalogue.

The 1936 21 NIGERIA George V. is a stamp that is in demand by investors. Postally used it is a desirable item.

The 21 1928 of BAHAMAS is another George V. stamp which is rising in price. Fine used copies are scarce.

The 4d. and 5d. values issued by LEEWARD ISLANDS in the 1921-32 series are seldom met with. Indication of their comparative scarcity, by appropriate catalogue increases, should be forthcoming next season.

The Charity issues of HOLLAND (recommended here before) are still far from easy to find at any large discount off catalogue. Wholesale prices continue to rise.

Four Liechtenstein stamps to commemorate the recent homage to the young Prince. They depict a similar happening in 1718. 1939. Commemoratives. Perf. 12 No wmk. Recess-printed at the Government Printing Works, Vienna, in sheets of 20 (5 x 4). 20r. claret, 30r. blue, 50r. blue-green.

New definitive stamp depicting Arab scenes. 1939. Definitives. Perf. 14. No wmk. Printed in photogravure by Waterlow and Sons, Ltd., London. 5c. orange, 10c. emerald, 15c. chestnut, 20c. bright ultramarine.

One of the most attractive stamps we have had from the U.S. recently commemorates the 150th anniversary of the inauguration of George Washington as first President of the United States on the balcony of the Federal Building, New York, on April 30, 1879. 1939. Commemoratives. Perf. 11. No wmk. (Whitfield King & Co.) Recess-printed by the U.S. Bureau of Engraving and Printing in sheets of 50 (10 x 5). 3c. bright magenta.

Stamps to commemorate the crowning of Pope Pius XII 1939. Commemoratives. Perf. 14. No wmk. Printed in photogravure by the Italian Government in sheets of 50 (10 x 5). 25c. green, 75c. carmine (Wm. Fraser (Stamps) mine, 80c. Ltd.) purple, 1.25l. blue.

Ten attractive stamps to commemorate the 100th anniversary of the independence of the Grand Duchy. The 35c. low value bears the Arms of Luxembourg. "Mir Woelle Bleiwe Wat Mir Sin" ("We would stay what we are"). The

British Money Meets China - German Deal

The arms deal between Germany and China was completed at Chungking on June 30 and will probably absorb the first British credits to China.

Some 150 tons of wolfram ore have arrived at Hongkong from London en route for Japan, and 38,000 tons of bauxite ore from Indo-China and India, unsaleable in Europe on account of its inferior quality, has arrived through European agents for Japan.

The Americans recently shipped through Rangoon aeroplane parts to be assembled at Chinese aerodrome just over the Burma border. There is tremendous business in Chinese ores with Japan because there are no other customers, and the business is mostly conducted through agents.

H. K. STOCK
EXCHANGE

Three interim dividends for the
current year's working have been
announced this week.—H.K. Elec-
trics \$1.00, Star Ferries \$2.00 both
the same as last year and Trams
50 cts, an increase of 5 cts. This
latter interim indicates an increase
in passenger traffic, but neither its
declaration nor the other two have
made any impression on the mar-
ket. Another bullish factor was
H.E. the Governor emphatically
stated in the legislative Council
yesterday afternoon that in spite
of the Anglo-Japanese talks in
Tokyo there had been no change in
the policy of the British Govern-
ment towards China. Whilst this
pronouncement was warmly wel-
comed in the Colony, so far as the
market is concerned, it has fallen
on deaf ears.

The market this week has been
the duldest coupled with the
smallest turnover for many weeks
past.

YUNNAN'S FIVE-YEAR PLAN
FOR RECONSTRUCTION

Already launched and well under way is the Five
Year Reconstruction Plan for Yunnan Province which
aims to raise the annual value of production to a level
of \$100,000,000, according to Mr. Chang Si-ling, recon-
struction commissioner of the province.

The leading reconstruction
project at present is the
stimulation of silk cultivation
in Yunnan. It is hoped that
in five years Yunnan's silk
production will be raised to
an annual output valued at
\$40,000,000.

Scientific methods of sericulture
will be introduced to lift the
annual production, by the time
of the completion of the plan, to
10,000 piculs annually.

At present the province exports
only small quantities of silk to
the United States, but it is ex-
pected that the outgoing volume
will reach a total of 5,000 quin-
tals within two years.

Production Yields
Although each year the pro-
duction of foodstuffs in Yunnan
reaches impressive levels (rice,
20,000,000 quintals a year, pro-
duced on 1,700,000 acres in the
southwest; wheat, 600,000 quin-
tals, produced on 900,000 acres in
the northeast), the present yield
per acre in the province is rather
low.

The production goal for rice is
set at the coastal standard of
4,200 catties from each acre of
rice field.

Attention is also being given
to the production and improve-
ment of wheat, for Yunnan, due
in part to the lack of mills, im-
ports no less than 10,000,000 cat-
ties of flour annually.

Mineral Resources
In the development of the pro-
vince's rich mineral resources, the
provincial and National Govern-
ments are co-operating. Already in
operation under joint control are
a \$3,000,000 copper smelting com-
pany, a \$20,000,000 iron and steel
works, and others.

In addition, the Provincial
Finance Bureau has a large in-
dustrial stake of its own: a
\$8,000,000 tin-smelting company, a
\$1,500,000 hydraulic power plant,
a \$3,000,000 salt manufacturing
plant, and the \$4,000,000 Yunnan
Mining Administration.

The Ministry of Communications
is working furiously to complete
the Yunnan-Burma and the Yun-
nan-Szechwan railways, which
will give the Yangtze valley a
rail link with the Indian Ocean.

In the realization of these many
projects, the Government would
welcome foreign and overseas
Chinese capital. Recently several
investigating commissions sent
by enterprising overseas Chinese
have come to the province to
probe its potentialities.—(C.I.C.)

U.S. DRIVE ON
OIL MONOPOLIES

CHICAGO, July 28 (Reuter).—
The Circuit Court of Appeals re-
versed the conviction on sixteen
oil companies and five individuals
who were tried at Madison,
Wisconsin, on charges of violating
the anti-Trust Law by fixing the
prices in the oil industry. The
court has ordered a re-trial.

The oil industry is one of the
Federal Government's first objec-
tives in its sweeping drive against
alleged monopolies.

Anglo - U.S.
Barter DealTRADE INTERESTS
CONSULTED

LONDON, July 28 (Reuter).—
The question of the Anglo-
American Barter Agreement
was raised in the House of
Commons yesterday by Mr.
Temple Morris, who asked
what precise steps would be
taken to carry out the barter
deal?

Mr. Oliver Stanley, President of
the Board of Trade, referred to his
reply of July 4 and added that the
Government had not yet been
notified that legislation had been
passed empowering the United
States Government to acquire cot-
ton.

In the meanwhile, considerable
progress had been made in the
consultations of the trade interests
concerned in working out the ar-
rangements for implementing the
agreement.

Cash Sales
WASHINGTON, July 28 (Reuter).
—Senator Byrnes announced
yesterday that negotiations had
been completed for the sale of
about 175,000 bales of cotton to
France and Switzerland.

The sale will be made for
cash at a minimum price equal
to the world's price minus the
Government's carrying charges
for eighteen months. Thus the
minimum price is some 6¢ per
bale below the world market
price.

The buyers must agree to store
the cotton for five years as a re-
serve supply, except in the case of
war.

Senator Byrnes said that nego-
tiations were under way with
another country for a similar sale.

Senator Byrnes introduced a bill
authorizing the Cotton Control
Committee to sell agricultural com-
modities abroad for reserve storage.

JAPAN'S TRADE WITH
SOUTH AMERICA

TOKYO, July 28 (Reuter).—Ja-
pan's exports to South American
countries during the first half of
this year was 35 per cent below
the same period last year, accord-
ing to the Ministry of Finance
figures.

Imports from South America
rose by 56 per cent.

SCHEME FOR WAR
RISKS INSURANCE

LONDON, July 28 (Reuter).—
The personnel of the Govern-
ment Committee to examine the
practicability of the scheme for
War Risks Insurance will be Vis-
count Weir, Sir Ernest Harvey,
Sir Walter Benton, Sir William
Clark Lees and Sir Alan Rae
Smith.

Announcing the names in the
House of Commons, Capt. Crook-
shank said he hoped to convene
a conference within the next few
days, after which it would pro-
ceed with its inquiries under the
chairmanship of Viscount Weir.

60,000 HOMELESS
CHINESE AT WORK

The development of handicraft
and light industries as another
solution of the refugee problem in
China is well started. In many
cities, towns and villages through-
out Free China small factories
have sprung into existence, estab-
lished by the Chinese Govern-
ment or by civic philanthropic or-
ganizations with the financial aid
of Central or provincial govern-
ment authorities. They have as
their common aim the utilization
of refugee labour to the advantage
of China's war of attrition against
Japan.

Already 61,540 refugees are em-
ployed in the operating factories.
When all the plants for light in-
dustries are ready, hundreds of
thousands of other refugees will
again be able to be self-support-
ing.

Of those already working, 50,000
have become members of indus-
trial co-operative societies estab-
lished in various centres by the
Chinese Industrial Co-operative
Association. The Association's
\$700,000 capitalization came from
the Ministry of Finance.—(C.I.C.)

STEADY RESPONSE TO CALL FOR VOLUNTEERS

LONDON, July 28 (BWS).—
The response to the call for
volunteers for various branches
of National Service continues
steadily. About 49,000 persons
applied to be enrolled last
week. This brings the total
since the beginning of the cam-
paign in January last up to
about 1,943,000.

AQUATIC SPORTS OF VOLUNTEERS

Championship Won By M. G. Coy.

The annual swimming sports of
the Hongkong Volunteer Defence
Corps were held last night at the
Victoria Recreation Club, a large
attendance being present to see
the Machine Gunners win the
Inter-Company Championship
with 11 points.

The Mobile Column were second
with 10 points, and the Portuguese
Company, who were unfortunate
enough to be disqualified in both
relay races, third with eight points.

There was an excellent exhibi-
tion of fancy diving by L. Roza-
Pereira and Stanley Lee. The pro-
gramme was concluded with a
dance.

Mrs. A. E. Grasett, wife of His
Excellency the G.O.C., gave away
the prizes. His Excellency the
Governor, Sir Geoffrey Northcote,
K.C.M.G. K.B.E., attended.

The results follow:
50 Yards Ladies' Invitation Race:
1. Miss B. M. Richards, 2. Miss A.
Dowbiggin, 3. Miss C. Marques.

150 Yards Medley Relay: 1.
Mobile Column (D. Hutchinson, P.
Wilson, H. L. Ozorio), 2. Machine
Gunners, 3. Corps Artillery.

50 Yards Musing Detachment
Championship: 1. Miss A. Dow-
biggin, 2. Miss M. Booker, 3. Miss
J. Booker, 4. Miss I. Buchanan.

High Diving: 1. Portuguese
Company (L. Remedios, L. D. Re-
medios, C. MacKintosh), 2. Machine
Gunners, 3. Mobile Column.

50 Yards Volunteer Handicap
Race: 1. D. O. Parsons, 2. F. M.
Thompson, 3. G. Ainslie, 4. N.
Broadbridge.

300 Yards Team Race (Teams
of Six): 1. Mobile Column (D. H.
Stewart, H. L. Ozorio, A. Ozorio, D.
Hutchinson, E. A. W. Fowler, G. A.
Arnold), 2. Machine Gunners, 3.
Corps Artillery.

Officers v. Sergeants' Race: Won
by Sergeants (C. Q. M. S. J. J.
Lima, Sgt. V. White, Sgt. G. Winch,
Sgt. M. A. Baptista).

First Aid Race: Won by Miss M.
Booker and G. Day.

Pillow Fight: Won by F. M.
Thompson.

Water Polo Final: Portuguese
Companies beat Machine Gunners
by three goals to one.

HONGKONG'S OWN MAGAZINE

Yet another magazine has just
seen the light of day to add to
the various publications which are
being printed in Hongkong.

Neatly printed and well "dressed
up" on art paper, "Hongkong's
Own Magazine" should prove to
be one of the most popular of the
monthly periodicals that have ap-
peared locally.

As the editor of the magazine
points out, "Hongkong is a most
unusual place," because it lacks
the amenities where a citizen can
express "his appreciation or dis-
approval of the policy of the ad-
ministrators" and it is to fulfil
this need that the magazine has
been launched so that matters
affecting the interests and well-
being of the Colony may be freely
ventilated and discussed.

This is, indeed, a worthy object
and, judging from the first issue,
the publishers and the editorial
staff of the magazine seem cer-
tain of making their venture not
only extremely popular, but most
successful.

The first issue is profusely illus-
trated with photographs dealing
with sport, society, art and enter-
tainment, while the reading matter
has been judiciously selected and
compiled.

COUNTY CRICKET
LONDON, July 28 (Reuter).—
Middlesex defeated Derbyshire by
an innings and 24 runs. Derby
110 (Sims 8 for 32) and 313 (Sims
5 for 128); Middlesex 447 for 7
dec. (Compton 214 not out).

A gasoline tank exploded about
8 p.m. on Thursday off Tai On
Street, when Li Ming, 101 of
steamboat "Sung Tso," was injured
and removed to Queen Mary
Hospital.
